

How to Run the Student Entry Date Report in Sakai

For online and hybrid classes, each student's exact date of entry into the class ("E" date) is the date the student first submitted a forum post or reply, a test or quiz, or an assignment in Sakai.

In the Sakai site for your online or hybrid course, be sure to include one or more activities in Forums, Tests & Quizzes, or Assignments for students to submit between the start date and census date for your class.

After the course census date, instructors will run the *Student Entry Date for Online/Hybrid Courses* report in Sakai to determine each student's exact entry date ("E" date).

TO RUN THE REPORT AND DETERMINE STUDENT ENTRY DATES:

1. In your class Sakai site, click **Statistics** in the course menu on the left.

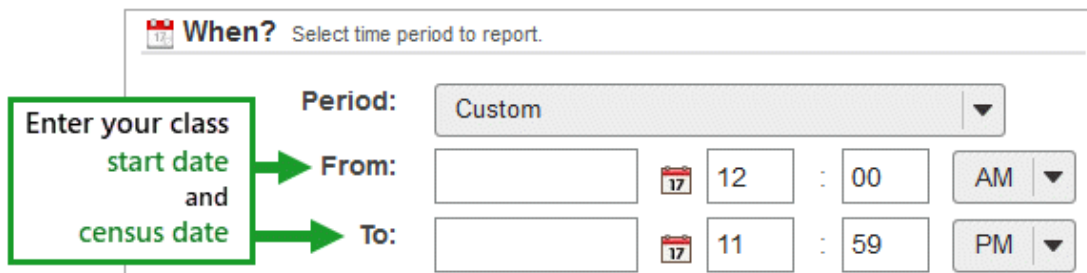

2. Click the **Reports** tab along the top.

3. Click **Edit** under the report titled *Student Entry Date for Online/Hybrid Courses*.

4. Under **When?** click the drop-down beside **Period** and choose **Custom**.
 - Beside **FROM:** enter the class **start date**, with a time of 12:00 AM.
 - Beside **TO:** enter the class **census date**, with a time of 11:59 PM.

A screenshot of the "When?" form. The "Period" dropdown is set to "Custom". The "From:" field is set to 12:00 AM and the "To:" field is set to 11:59 PM. A green box highlights the "From:" and "To:" fields with arrows pointing to them from a text box that says "Enter your class start date and census date".

When? Select time period to report.

Period: Custom

From: [] [17] 12 : 00 AM

To: [] [17] 11 : 59 PM

5. Scroll to the bottom and click **Generate report**. The lower part of the screen displays the report, which lists submissions for each student (with 20 records displayed per page).
6. To identify each student's entry date, sort the report by DATE and then by NAME. To do this:
 - (1) Click the **DATE** column heading, and then (2) click the **NAME** column heading.

To sort the report, first click DATE, then click NAME

User ID	Name 2	Tool	Event	Date 1	Total
anna	Bean, Anna	Forums	New thread	1/23/17	6
anna	Bean, Anna	Tests & Quizzes	T&Q Assessment submit	1/24/17	2
emma	Grayson, Emma	Forums	New thread	1/25/17	13

The report is now sorted alphabetically by student, with the earliest submission displayed first for each student.

7. On screen, the report shows just 20 records per page. To easily display all records, scroll to the bottom and click **EXPORT**, then click **EXPORT PDF**. This will download a printable PDF version of the report that lists all entries for all students (sorted by name and date).
8. **Each student's earliest submission as listed in the report is his/her exact entry date for attendance purposes.** Mark this date with an **E** for the student in WebAdvisor > Web Attendance Tracking.

For example: In the sample report pictured above, student Anna Bean's earliest submission was on 1/23/17. In Web Attendance Tracking, the instructor would mark an **E** in the column representing 1/23/17 for student Anna Bean.

For instructions on entering E dates in WebAdvisor, see *Web Attendance Tracking for Curriculum Courses: Faculty User Procedure*.

9. **No shows:** Check the report to see if any students are not listed. Students not listed in the report did not submit an online activity by the census date.
 - **For online classes**, students who do not appear in the report are no shows.
 - **For hybrid classes**, students who do not appear in the report are no shows **only** if they also did not attend the seated portion of the class by the census date.

Note: The report will include any students who submitted an online activity but subsequently dropped the course (and are no longer in the Sakai site). As for all other students, instructors should report their entry dates students in Web Attendance Tracking.

For important instructions on handling no shows, see *Web Attendance Tracking for Curriculum Courses: Faculty User Procedure*.

For detailed information on attendance, see *Web Attendance Tracking for Curriculum Courses: Faculty User Procedure* (provided by Durham Tech's Student Development and Support office).
